

HUDDLE
HEALTH

Important Notice for your Upcoming Appointment

At Huddle Health, we are dedicated to addressing What Matters and empowering whole person health and wellness.

Insurance carriers offer [routine physical and/or wellness exams](#) as a benefit at no charge or minimal co-pay. Annual visits are a gentle reminder for certain recommended preventative screenings and to update records.

While these visits help maintain the provider/ member relationship, they do not include treatment of new medical problems or changes in medications and the related labs, orders, test results review or referrals.

- We are dedicated to your health and well-being.
- We want to save you time and prevent unnecessary visits to the office as much as possible.
- We welcome the opportunity to discuss any medical concerns or questions about your medications.

During your upcoming routine or wellness exam, we must notify you that additional co-pays or deductible fees may be required by your insurance carrier.

If you want more information about your upcoming visit and/or if you want to schedule a consultation about medications or new medical concerns, please contact our office nurse line for assistance.

Health is a journey we take. Together.
